Then come to FERCHAU, the market leader in engineering and IT, with more than 8,400 employees at over 100 sites. Become one of over 2,500 IT consultants and work on IT projects that demand your entire knowledge base and thus also advance your personal development. Look outside the box and apply as a

Software Developer (m/w/d)

Berlin

Growth and variety - your development has a perspective.

- In the Audio Team we abstract different audio hardware, provide the audio interface to applications as well as manage audio across multiple applications.
- As a Software Engineer in an agile team, you will develop features as well as design, document, implement, integrate and test your code.
- Development will typically have C++ focus and make use of modern tools, technologies, engineering practices and methodologies.

Your qualifications are convincing.

- Degree in Computer Science, Information Technology, Communication Technology or a comparable qualification
- Embedded Linux Programming
- Know-how of audio signal processing in embedded environment
- Expertise in building audio processing devices and experience with version control and CI/CD
- Experience with ALSA and ASoC layer, Yocto, git, Jenkins, Jira is a nice to have

Does our offer sound like it's directed at you? Then we look forward to receiving your application - either online or by email quoting reference FE49-50940-BMO to Frau Maria Steffen. Our promise to our customers is the same we make to you: we help you develop.

” Warum nur Zuschauer sein,
wenn Sie mit uns direkt an den Start gehen können.
